

INFUSED OLIVE OIL

HARRISSA OLIVE OIL

Most popular in North Africa and the Middle East, Harissa is made with chili peppers (often smoked), garlic, caraway, coriander and cumin, which are pounded into a paste and left overnight to develop its flavours. We've added more peppers to this by popular demand, making it our hottest infused EVOO.

Great when paired with a white balsamic like our Sicilian Lemon or White Peach, or a dark balsamic like our Aged Tangerine or Dark Chocolate.

Made from premium, ultra fresh, extra virgin olive oil from our collection blended in small, artisan batches with 100% natural flavour.
